

Protected A (when completed)

Personal information is collected under Section 4(c) of the Protection of Privacy Act to enrol you for benefits funded by Primary and Preventative Health Services. Questions: Alberta Supports Contact Centre 1-877-644-9992.

Patient Information

Patient Last Name	Patient First Name	Personal Health Number	Date of Birth

Health Professional Information

Health Professional Last Name	Health Professional First Name	Office Stamp (Optional)
Profession	Phone	
Date (yyyy-mm-dd)	Signature	

Patient Spouse or Child Information (if request is not for the Cardholder)

Name of Spouse/Child	Personal Health Number	Date of Birth

Drug / Product Request (only one request per line)

Drug Product Requested	New/Renewal	Condition(s) treated	Trial & outcome	ADBL tried	Duration
	New Renewal				
(max 40 characters)					
	New Renewal				
(max 40 characters)					
	New Renewal				
(max 40 characters)					

Additional information that may support the request (other conditions, complications, allergies, hospitalizations, etc.)

(max 2500 characters)

Health Benefit Exception — Information for the Prescriber

What is the HBEP/HBEC?

The Health Benefits Exception Process / Committee lets eligible Health Benefits Card holders obtain medically necessary benefits outside the standard agreements for ambulance, optical, prescription/non-prescription drugs, nutritional products, diabetic supplies, and dental/denturist services.

Alberta Drug Benefit List (ADBL)

Drugs/products on the ADBL or Drug Benefit Supplement must have been tried and proven unsuccessful before the committee will consider coverage for a product that is not a regular benefit.

Health Canada Indication

The condition treated must align with the Health Canada indication for that product. Off-indication coverage is considered only in specific circumstances where the condition, if untreated or treated conventionally, may become life-threatening or severely disabling and all standard treatments have failed. Only products with a DIN, NPN or DIN-HM are eligible.

Special Authorization / Restricted / Brand Name

Send these directly to Alberta Blue Cross with the appropriate Special Authorization form. If ABC denies, include the denial letter with the HBEP/HBEC request.

Drug / Product Trial

A trial period may be required; medical documentation of the outcome must accompany the request. If the product has not been tried, the request may not be approved.

Renewal

Coverage lasts a set period and must be renewed. The duration documented by the prescriber governs. Submit renewals before coverage ends.

Form Completion

Completed by a Healthcare Professional; the client or worker submits it. Government does not pay for form completion. Incomplete or inaccurate forms cause delays or are returned. All items must be purchased through a licensed Alberta pharmacy.
