

WE'RE STILL IN THIS TOGETHER

Some recipients stay on AISH. Many do not. Here is what the numbers actually show.

The government's headline number of 79,290 is not the whole story -- and even the real number can't be confirmed.

STEP 1 -- WHO IS IN THE 79,290? (GoA Open Data, September 2025)

41.5%

32,901 people
Physical
Disabilities

30.2%

23,940 people
Mental Illness
Disorders

28.3%

22,419 people
Cognitive
Disorders

Note on Cognitive Disorders (28.3% -- 22,419 people):

This includes intellectual disabilities broadly. PDD recipients (13,641) are a confirmed subset -- but not everyone with a cognitive disorder is on PDD.

STEP 2 -- WHO AUTOMATICALLY STAYS ON AISH (Government of Alberta, March 2026)

13,641

17.2%

Persons with Developmental
Disabilities (PDD) recipients

*Confirmed: 2024-25 Seniors, Community and Social
Services Annual Report*

13,603

17.2%

Recipients over
the age of 60

Confirmed: GoA Open Data, Sept 2025

2,423

3.1%

Residents of
Continuing Care homes

*Confirmed: GoA Open Data, Sept 2025 (Modified AISH
category)*

ALSO STAY ON AISH -- BUT NO CONFIRMED COUNT EXISTS:

Palliative / Terminal medical conditions

Not in continuing care. No published count.

Severe & profound developmental disability

Not on PDD. No published count.

The government has not published how many people fall into these two categories. The final ADAP number is unconfirmed.

STEP 3 -- THE MATH (Based on confirmed numbers only)

Total AISH recipients (Sept 2025):	79,290	100%
Less: PDD recipients:	-13,641	-17.2%
Less: Over 60:	-13,603	-17.2%
Less: Continuing care:	-2,423	-3.1%
Less: Palliative/terminal + non-PDD developmental	UNKNOWN	?%

Confirmed minimum going to ADAP: **~49,623** **~62.6%**

WHAT THIS MEANS

79,290 is not the ADAP number.

It is the total AISH caseload. At least 29,667 confirmed recipients will stay on AISH automatically. The real ADAP number is below 50,000 -- and could be lower still once palliative and non-PDD developmental disability numbers are published.

The government has not published two key numbers.

How many AISH recipients have palliative or terminal conditions outside continuing care? How many have severe developmental disabilities but are not on PDD? Until those numbers are published, the actual ADAP transition number cannot be confirmed. The transition is 81 days away.

If you are on PDD, over 60, in continuing care, or palliative -- you are staying on AISH.

You do not need to reapply. You do not need to do anything. AISH will identify and notify you. Share this with anyone in those groups who is afraid.

Everyone else is still in this fight.

~50,000 Albertans with physical disabilities, mental illness, and cognitive disorders not covered by the exemptions are still heading to ADAP on July 1, 2026. Their income will drop. Their appeal rights are gone. The criteria still are not published. We are still in this together.
